

VulnAI Security Assessment Report

Target: <http://testphp.vulnweb.com>

Date: June 16, 2026

Scan ID: 9736e4ab-cdb7-48fb-ade0-372ac31e3623

Generated by VulnAI Scanner — For Authorised Use Only

Executive Summary

This automated security assessment identified 0 findings across the target system. Manual verification is recommended for all findings before remediation.

Severity	Count
Critical	0
High	0
Medium	0
Low	0
Informational	0
TOTAL	0

Detailed Findings

Finding #1: SSL Certificate Not Found

MEDIUM

Affected Component:

testphp.vulnweb.com:443

Description:

Could not retrieve SSL certificate for testphp.vulnweb.com:443

AI Triage Notes:

Further investigation into the domain configuration and potential misconfiguration should be conducted.

Remediation:

Remediation

Remediation advice could not be generated automatically due to an AI service error.

Recommended Actions

1. Manually research this vulnerability class for your technology stack.
2. Apply security best practices for the affected component.
3. Verify the fix with appropriate security testing tools.
